Akcia has a department of full-time personnel dedicated to developing our CCL® programming solutions. We have been a niche go-to company in this space for over six years. In that time we have written programs that touch both Millennium™ and Classic™ architectures as well as every module in the Cerner HNA™ suite. We even develop scripts that are part of the product offering for Cerner®.

We are committed to delivering CCL® programming services and our staff is trained, experienced and large enough to accommodate ANY NEED and ANY TIMELINE.
