Akcia offers training classes on Cerner's Millennium™ platform. Akcia's CCL® training classes are conducted by the best developers in the business and are delivered in a cost-effective manner. Our training packages are: Beginner, Upper Level and Mentoring. We provide classroom materials and offer extended support to our clients. The different packages and general class structure are detailed below.

▶ Beginner Level

The beginner package is for those that have little or no background with CCL® report writing. It consists of a three day class which is a total of twenty four hours of training. The beginner package is for up to six trainees and up to two more students can be added for an additional fee.

Class Structure for Beginner Level:

- ▶ Accessing CCL®
- ▶ Anatomy of a CCL® program
- ▶ Tables and Fields
- ▶ CCL® Syntax
- ▶ Basic Queries
- ▶ Miscellaneous

▶ Upper Level

The Upper Level package is for those who already have a working knowledge of CCL® report writing. We offer two Upper Level training courses.

- ▶ A two day class for a total of 16 hours of training
- ▶ A three day class for a total of 24 hours of training

The upper Level Packages are for up to six trainees. Up to two more students can be added for an additional fee.

Class Structure for Upper Level:

- ▶ Performance tuning
- ▶ Record Structures
- ▶ Debugging
- ▶ Creating User-Defined Tables
- ▶ Postscript Reports

▶ Mentoring Package

The mentoring package is for those clients that have a specific training need. For example if a client wants their staff to have more detailed knowledge of CCL® GenViews, Akcia can specifically train on GenViews. The mentoring packages varies, depending on the amount of time needed to tailor the curriculum and the specific needs for the client.

Single Focus. Extraordinary Results.
Cerner® Professional Services from Akcia.
